Molly Gwinn, Chair, asked what the pitch of the roof would be. Mr. Cribbs stated 7 and 12 would be the pitch of the roof. Ms. Gwinn asked about the chimney, and Mr. Cribbs stated the chimney will be framed with shakes like the rest of the house, as it is a fire place insert. Mr. Taylor stated the windows need to be 4 over 4 like the windows in the rest of the house.

Upon a motion by HPC Member Tom Schroder, seconded by HPC Member John Taylor, the HPC Commission unanimously approved to adopt the Findings of Fact and to issue a Certificate of Appropriateness to construct a detached garage, add a first floor addition to the cottage rear, paint, a new covered porch, and a new roof on the main house and cottage at 275 Dundee Road with the condition that windows in the addition and the garage will be 4 over 4, consistent with the windows on the house, by a vote of 5-0.

**B. COA 19-051**

Kathy Liles, Village Planner, stated that this particular COA was mistakenly numbered incorrectly in the packet the COA number should be COA 19-051, not 19-041. Russ Cribbs, Contractor, stated the columns on the front porch will be painted white and the front door will be replaced. Molly Gwinn, Chair, stated she would like the windows in the garage to match the existing home. Mr. Cribbs stated this is something they have already changed, the windows will be 6 over 6 like the other windows in the home.

Upon a motion by HPC Member Eric Von Salzen, seconded by HPC Member John Taylor, the HPC Commission unanimously approved to adopt the Findings of Fact and to issue a Certificate of

Appropriateness to construct a new garage, add shutters, front porch railing and columns and exterior lighting at 120 Woods Rd. with the condition that the windows in the garage /guest house will be 6 over 6 by a vote of 5-0.

**D. COA 19-052**

*The following individuals were sworn into the public hearing; Brent Covington, AIA Ratio Design, John Birath, Moore County Schools Executive Officer of Operations.*

Alex Cameron, Senior Planner, explained this public hearing is to consider a request within the Pinehurst Historic District to construct a new Pinehurst Elementary School following demolition of the old school at 100 Dundee Road adjacent to the intersection with Kelly Road in Pinehurst, NC. The property can be identified by Moore County Parcel ID #24884. The property is owned by the Moore County Board of Education (Moore County Schools) and the applicant is Brent Covington, AIA (Ratio Design). Mr. Cameron read portions of the staff report into the record and confirmed that adjacent property owners were notified and that the property had been properly posted. Mr. Cameron explained that the applicant has previously been approved for a COA for demolition of the current school and a major site plan was approved by the planning and zoning board on May 22<sup>nd</sup> and will go before Village Council at their June 11<sup>th</sup> meeting.

John Birath explained the process of getting to where the school system is now and how they decided to stay at the current location. Mr. Birath stated the small site has been the challenge from the beginning. Brent Covington, Architect, reviewed the general concept plan and elevations with the Commission. Mr. Covington stated they have tried to respect the historic aspect of the community in the design process. They are using red brick and brick reveals, which they took from the entrance at the Carolina.

**Public Comments:**

- Scott Sheffield, resident, was sworn into the public hearing. Mr. Sheffield asked about the bus drop off area, the activity in that area and how many buses would be parked there.
  - Ms. Liles stated that was not in the per-view of the Commission, as they are tasked with following their guidelines. That question is for the Planning and Zoning Board and will be the subject of a future meeting.

- Judy Davis, resident, was sworn into the public hearing. Ms. Davis stated she lives the corner of Kelly and Everett and she had thought the gym was the tallest part of the building but it is not, the classroom portion of the school is the tallest. She asked if the service area that borders her property would be gone. Ms. Davis stated she is glad the building is brick and is staying in the community.
  - Mr. Birath stated that was correct, the tallest portion is the classroom portion of the building.
- Mark Anderson, resident, was sworn into the public hearing. Mr. Anderson asked about the lighting around the buildings and if the building would serve as an emergency shelter.
  - John Birath, Moore County Schools, stated the school would have exterior wall packs with cut off shields to provide a safe site, but not light up the entire lot. Also, he explained that the school would not be an emergency shelter as an emergency shelter is required to have special features and meet certain codes, which this school doesn't meet.

Upon a motion by HPC Member John Taylor, seconded by Terry Lurtz, the HPC Commission unanimously voted to adopt Findings of Fact and to issue a Certificate of Appropriateness to construct a new Pinehurst Elementary School following demolition of the old school at 100 Dundee Road adjacent to the intersection with Kelly Road, subject to the condition that this approval is for the building only, by a vote of 5-0.

The property can be identified by Moore County Parcel Number# 24884. The property is owned by David and Molly Gwinn and the applicant is Davidson Building Services, Inc.

**FACTS**

**APPLICABLE SECTIONS OF STANDARDS AND GUIDELINES**

**STAFF ANALYSIS:** The principle dwelling at 600 Linden Road was built in the mid-1920's and has since been removed with approval of the HPC. At the time of that approval, the applicant wished to attempt to save the guesthouse. However, the builder has since deemed that to be impractical based on condition of the structure. The original survey of the property for listing noted that the 3-bay guesthouse is frame in construction with six over six windows, shutters and a cupola. Of particular note is the hedgerow along Linden Road which this request will not affect.

**A. SECTION 1.6.4.7 MAJOR WORK** - *Demolition is considered to be major work.*

**B. SECTION 3.5 - DEMOLITION** - *Demolition of buildings in the Village is discouraged except to protect public safety. The HPC may order a delay of up to 365 days while it considers several points: can the building be moved, does it contribute to historic character of the Village, are there owners will to consider restoration, can it be adapted to the owner's needs, and is it structurally feasible for reuse. In this instance, the owner has attempted to save the structure for reuse but has found that saving the structure is not feasible. The building is on grade construction and would be very difficult to move. The structure is tucked away in the rear of the property and is not visually contributing to the district at this time.*

1. The structure **is/is not** able to be moved.
2. The structure **does/does not** contribute to the character of the Village.
3. The owners **are/are not** willing to restore the building.
4. The building **can/cannot** be adapted to future needs
5. The building **is/is not** structurally feasible for reuse

**FINDINGS OF FACT AND CONCLUSIONS OF LAW**

1. Removal of the guesthouse **will/will not** be congruous with the Pinehurst Historic District.
